Forecast for Monday 01 Aug 2022

Weather: Becoming mostly cloudy during the early hours with occasional brief clear intervals. Monday morning will be dry with sunny intervals and some lengthier sunny periods at times. Clouding over a little during the afternoon with thicker cloud bringing outbreaks of drizzle during the evening. Heavier rain is possible to end the day with further showery rain overnight. Freshening southerly winds, reaching gale force on summits by the evening.

Chance of cloud-free hill tops above 600m: 90% decreasing to 40% during the evening.

Low cloud and visibility: Little if any cloud during the morning. Patches forming around 850m during the early afternoon with extensive cloud forming above 700m by dusk. Generally very good visibilities but locally moderate in rain by dusk. Very poor in cloud.

Meteorologist's View

Most of the day will be fine with clear views of surrounding hills and mountains. It will gradually become windier though with gales on the highest summits by the evening.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Sun 31 Jul 2022	9.6mm	9.8mm	9.8mm

Forecast for Tuesday 02 Aug 2022

Weather: After a wet night with extensive low cloud, it will remain windy, dull, overcast and often wet throughout much of the day. The rain will become more showery in nature by the afternoon and the odd drier and sunnier period is likely. Feeling warm and humid in shelter from the wind.

Maximum wind: South-westerly 30 mph gusting 40-45 mph.

Chance of cloud-free hill tops above 600m: 20% becoming 40% during the afternoon.

Low cloud and visibility: Widespread and extensive cloud above 300-500m. Thinning layers of cloud to the north and east of major summits during the afternoon with cloud bases lifting to 500-700m at times. Widely poor visibility in rain and drizzle with extensively very poor visibility in cloud. Locally good in the north and east during the afternoon.

Temperature: **Valleys:** Plus 13 Celsius rising to plus 24 Celsius.
At 600m: Plus 15 Celsius.
Freezing level: Well above the summits.
